

WEBMASTER'S MESSAGE

TO YOU, A SPECIAL GUEST at this website: Hope you enjoyed the journey to this destination. You gave me many memories to cherish as your Webmaster/CyberEditor/CyberJournalist. I won't forget your loyalty and friendship as a regular visitor and taking the time to sign the guestbook and sharing photos or videoclips, via your own homepage link. Our "blast from the past" catapulted us into cyber territory, a new experience to enjoy that kept us "in the groove" with the technologically advanced younger generation. Nice! At least we didn't get left behind on the launch pad when it came to having our own www address! Our future can be anything we want it to be, so keep reaching outside the box for the rest of our lives. Thank you, most sincerely.

To my wonderful friends and visitors, it's been a joy to share my personal photos with you these past 5-1/2 years as your CyberEditor. I've also enjoyed your own many photoshares...thank you! I'll miss my interaction with you in cyberspace, but who knows what the future holds with such advancing technology! I truly hope that you have enjoyed your visits to this website, as I've strived to keep you fully informed on all the class activities, as well as to pay tribute to our friends who have passed away, much too early. Friends, take care of yourselves and stay healthy and happy always. I appreciate all your efforts to contribute to this website to make my "job" a lot easier.

Much love and aloha...STS.
